

LBS Tools Private Limited

Complete Solution

- PRODUCT DEVELOPMENT
- PRESS TOOLS
- INJECTION MOLDS
- SHEET METAL & PLASTIC COMPONENTS
- JOB WORK ON CNC MILLING
- JOB WORK ON CNC TURNING CENTER

LBS Tools Private Limited

LBS Tools Private Limited, an ISO 9001:2000 Certified Company was established in November 2006, is pioneer in manufacturing of **Sheet Metal/Plastic Components and Press Tools/Moulds Development & Maintenance of Tools**

We offer & aim our quality declaration to enhance Product quality by utilizing Precise Technology & keeping in mind the fundamentals of growth. We have installed complete **Tool Room** with all advanced machineries . We have efficient, well-qualified and experienced staff

Our Strength

We are firmly committed towards catering to the demands and challenges of the market as well as provide total customer satisfaction. Well-equipped with all the required machineries and infrastructural facilities, we are able to meet the demands and requirements of all our esteemed clients smoothly and effectively in the minimum possible time with special focus on ensuring high quality products to our clients, the company adopts the most stringent quality parameters conforming to international standards.

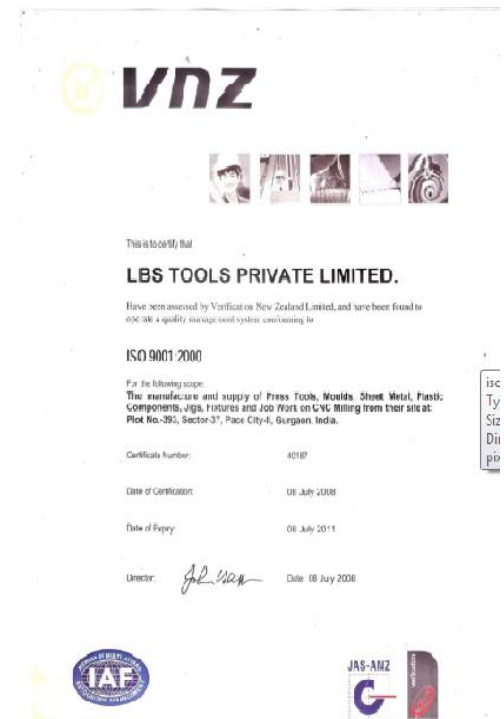

LBS Tools Private Limited

Quality Assurance

AN ISO 9001:2000 CERTIFIED COMPANY

Quality is our sphere and to make sure of the maximum quality standards of our products, we carry out stringent inspections at regular interval of time. All the inspections are to be carried very carefully by our experienced quality controllers. We also test the quality of raw materials for bringing consistency in our range.

PRODUCTS/SERVICES

We are a prominent name in the field of manufacturing dies and industrial components. Along with the products that we are manufacturing, we are also providing specialized CNC machining job work. All our products and services are delivered at their optimum quality level. Following are the products and services that we offer:

PRESS TOOLS

We specialize in manufacturing a whole range of tooling dies, which find application in automobile and other engineering based industries.

Fabricated by metal pressing technique, the sheet metal pressed tools that we manufacture and offer are known for their durability. These tools are precision engineered and deliver longer as well as hassle free performance. Our sheet metal pressed tools meet the needs of a large number of clients from varied industries.

PLASTIC MOULDS

We are also manufacturing Plastic Injection Moulds as per client specifications which are used for Industrial Automobile, Packing, Gift, Irrigation and Household Items.

Our in-house manufacturing facility and tool room machines assist us in manufacturing components as per the specifications of customers. Known for their hardness, dimensional accuracy and extreme resistance capacity, our range of products is offered at competitive prices to clients.

LBS Tools Private Limited

SHEET METAL COMPONENTS

Sheet Metal components offered by us are manufactured for serving different industries. These components are essentially made to cater a large number of purposes in different industries. They are available in a huge variety, in harmony with the requirements of our clientele.

PLASTIC COMPONENTS

We have the huge variety of the highly competent and long lasting range of the plastic components. These plastic components are basically used in the various industrial units. Our product has stability and the endurance which makes them highly acclaimed among the clients. Our plastic components are manufactured with the highest quality of the raw material which is procured from the authentic agents. These products have surpassed all the requisite quality parameters and the standards.

JIGS AND FIXTURES

The Jigs and Fixtures we manufacture are used to increase the production rate of the assembly without compromising on the accuracy and tolerance levels. All the components are made as per ISO norms and other international specifications as well as tested for their flawless durability rate and size accuracy before they are sent at client's end.

JOB WORK ON CNC VERTICAL MILLING MACHINE

We also undertake the services to machining job work on our CNC vertical machining center. The details of our machine and metal job work we can do are as under:

Make : BFW(CHAKRA)-BMV60T20

Specifications:

X = 1250 mm, Y = 600 mm, Z = 600 mm

ATC- 20 TOOL CHANGER

Maximum Load On Table :-1200 Kg
